SUPERINTENDENT'S REPORT

To the School Board and Citizens of Windsor:

It is a pleasure to present my ninth annual report for your consideration.

The Interim Commission on Education has completed their work, and their report provides some interesting reading. There isn't much that pertains directly to Windsor but it does strongly suggest some of my thinking in my report of two years ago. That is; communities not operating their own schools should seriously consider the cooperative movement. It is their hope that future planning will reduce the State to thirty-four school districts. I cannot see this coming for a long time, but it is interesting to know the direction our educational planners are heading.

You will note that there is an increase in your budget this year for transportation. This increase reflects only a part of the actual cost to the town of Hillsboro for transportation outside of their regular transportation route.

There are three special articles calling for appropriations. Two are for additional transportation, and one is to provide for money spent in a previous year when not enough was appropriated to meet the needs of the district.

I have met with the Windsor School Board more than ever this year, and it would appear that our problems of previous years are being more understandably worked out.

I appreciate the cooperation given me by the people in Windsor who have been involved with school affairs.

Respectfully submitted,

NORMAN R. HARTFIEL
